36 igor sheftunov on last week's cpsu cc plenum and
 andropov's speech. speaking about international issues,
 andropov pointed out that aggressive character of reactionary
 extremist forces headed by u.s. imperialism has been enhanced.
 he said efforts are being made to turn back course of events and
 added this policy will not be successful for imperialists.
 sheftunov goes on to condemn u.s. support for reactionary
 dictatorships and rotten monarchies and its support for shah's
 regime. he discusses persecution of tudeh party by shah and how
 attempts to suppress liberation movements in iran failed.
 says when imperialists wanted to resort to force to stifle
 revolutionary movement, soviet union announced it would not
 allow foreign intervention in iran's domestic affairs. general
 huyser had to leave country, and shah fled, too, revolution
 succeeded, but west tried to to stifle it with sanctions. ussr
 allowed iranian goods to pass through soviet territory. thus
 thwarting siege plans. in their efforts to reestablish domination
 over iranian people and other nations, imperialists have
 learned from their mistakes. this is why they strived, with help
 of elements like qotbzadeh, to spread discord among anti-
 imperialist forces. in order to to achieve this they used lethal
 weapon of anticommunism on extensive scale. rightist forces in iran
 have actually showed support for reagan's call for anti-communist
 crusade and prepared ground for persecution of tudeh party
 coupled with anti-soviet acts. in his remarks to ussr supreme soviet,
 gromyko pointed out ussr supports normal and friendly
 relations with iran. soviet union wants to see iran independent
 and has always supported goodneighborly relations with it. 17 JUN 1983
 gromyko then expressed regrets about recent acts against
 employers of soviet organizations in iran and said these acts
 do not help to expand bilateral relations. he stressed that soviet
 union's actions will be based on its views on whether iran is willing
 to maintain normal relations with us or if it has other
 intentions. (8 min: persian 1700 1800)
